

17" High Resolution Color LCD Monitor

Product Summary

The ADT 17" Color LCD is a thin film transfer (TFT) monitor designed for limited space applications where the monitor can perform the function of a CCTV and PC monitor all in one and with an overall depth of less than three inches.

Composite (BNC) and S-VHS video inputs provide direct connection with all professional video systems. A variety of input resolutions (VGA, SVGA, XGA, SXGA) for direct connection with most personal computers are supported. The monitors can switch easily from CCTV to PC using the front panel selector. Each model features two-channel audio and built in stereo speakers.

The 17" Color LCD monitor includes a long-life fluorescent backlight, digital progressive scan video processing, an on-screen menu for display adjustments, and includes an integrated desk-mount stand. The unit is VESA mount compatible and includes four-keyholes on the rear panel for wall mounting.

Features

- 17" High Resolution Color LCD, CCTV Monitor with PC input option
- Compact Flat panel design with integrated desk stand along with wide viewing angles are ideal for space limiting applications
- More than 500 lines of resolution
- Selectable front panel video input: BNC / S-VHS / PC
- PC Compatible Inputs ranging from VGA to SXGA using Standard VGA Cable
- High Brightness and Contrast Ratio reduces brightness degradation eliminating normal CRT flicker reducing eyestrain while improving picture clarity
- Long-life Backlight consumes less power than CRT monitors
- VESA wall mount compatible
- Built in stereo speakers
- Multilingual menu (English, French, German, Italian, Spanish, Polish)
- 12Vdc power adapter included

Ordering Guide

SCN#	Item
A-M170BP	17" Plastic LCD Monitor w/ desk stand

Specifications:

TFT LCD Panels / Native Resolution / Contrast Ratio

17" Diagonal Active Area / 1280 x 1024 / 400: 1

Video Inputs /Outputs

1-channel BNC in/loop out composite video
1-channel S-VHS in/out video
Auto termination

Audio Inputs / Outputs

RCA x 2 (stereo) audio inputs
2.5-watts internal speaker output

User Controls

Brightness, Contrast, Tint, Color, Sharpness, Setup

PC Input
