

Conduit Adaptor Kit

Conduit Adaptor Kit

PRINTED IN KOREA 50302839A

Please read this manual thoroughly before use, and keep it handy for future reference.

Installation

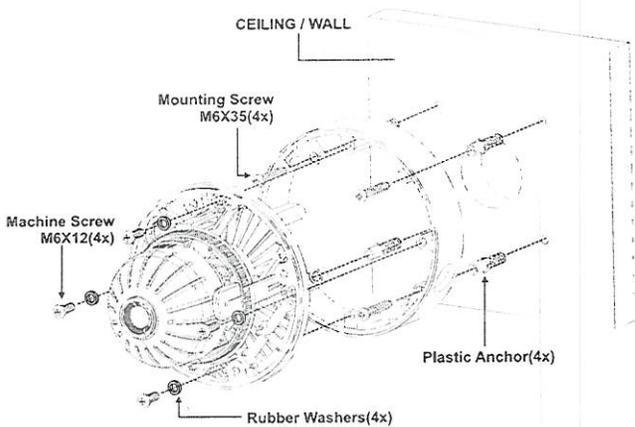

Figure 1. Installation Conduit Adaptor Kit

1. Select a suitable mounting location and verify there is sufficient cable to connect with cables from the housing.
2. Mark and drill mounting holes in the surface using the ceiling mount flange
3. Connect the wire from the pipe to the mating wires of the dome.
4. Open the dome cover and mount the dome base to the Conduit Adaptor using machine screws(x4).

Warning: Fasten the fixing screws of the dome camera firmly, or the dome camera could fall, causing injury.
