

Compact Color Bullet Cameras TRUE Day/Night Bullet Camera

S35CHPS / S35CHPS36

S230CWPS

SDN655PS

Product Summary

Color Bullet

The **S230CWPS** bullet style camera is a small full-featured camera. The small size of the camera, only 23mm in diameter permits use in a wide variety of CCTV applications, when covert or near covertness is required – such as residential applications.

The camera incorporates a high-resolution CCD (380TVL) with a 3.6mm fixed iris lens into a small and unobtrusive housing.

The video and power connections to the camera is a standard BNC connector and power pin for 12VDC operation. A 12VDC power supply and a rear-style wall or ceiling mount are included with the camera. The camera is quick and easy to install in a variety of applications.

Color Day/Night Bullet

The small size of the **S35CHPS / S35CHPS36** bullet style cameras - only 37mm in diameter including IR LEDs permits use in a variety of CCTV applications. The cameras incorporate a high-resolution (550TVL) color CCD with either a 3.6mm or a 6mm fixed iris lens into a small, unobtrusive and weather resistant housing with sunshield.

The built-in IR illumination of six IR LEDs allows this camera to produce a black and white image in the absence of any visible light (0 lux condition). The IR illumination provides coverage up to 10 meters (30-ft). As conditions approach near darkness, the camera automatically switches the IR LEDs on to illuminate the camera field of view.

TRUE Day/Night Bullet

The **SDN655PS** bullet style camera features the SONY® HQ1 chip set and offers TRUE Day/Night capability with an automatic switching IR filter. The camera offers 18 IR LEDs projecting IR illumination

to nearly 50-feet. The camera incorporates a high-resolution (550TVL) color CCD with 3.8-9.5 aspheric varifocal auto-iris lens into a 2.4" diameter by 5.71" long weather resistant housing with sunshield.

IR Illumination

The built-in IR illumination allows the cameras to produce a black and white image in the absence of any visible light (0 lux condition). The IR illumination of the **S35CHPS / S35CHPS36** series to provide coverage up to 10 meters (33-ft), and the **SDN655PS** provides coverage up to 15 meters (50-ft). As conditions approach near darkness, the cameras automatically switch the IR LEDs on to illuminate the camera field of view. The **SDN655PS** switches an internal IR filter out of the field of view offering a further improvement in low-light level viewing, for TRUE Day/Night performance. Both of these IR bullet cameras use a dual housing window design to prevent IR LED reflection problems.

Note: Illumination performance is a function of reflective objects in the camera's field-of-view. Outdoor nighttime viewing is improved with the addition of external visible lighting.

The video and power connections to the cameras are a standard BNC connector and power pin for 12VDC operation. The cameras include a 12VDC power supply. All models include a wall or a ceiling mount. The cameras are quick and easy to install in a variety of indoor or outdoor applications, and are the perfect solution when both color and low-light imaging is required.

Features

Color

- Ultra compact size – .9" diameter X 2.9" long
- Attractive design with non-reflective coating
- Anodized aluminum housing
- Rear-style swivel mount bracket included
- 3.6mm wide angle lens
- 12VDC power supply included

Color Day/Night

- Compact size – 1.5" diameter X 3.6" long
- Attractive design with non-reflective coating
- AGC, ATWB and Backlight compensation
- Rain and fog resistant glass coating
- Weather resistant anodized aluminum housing and sunshield
- Bottom-style swivel mount bracket included
- 3.6mm wide angle or 6.0mm lens options
- 12VDC power supply included
- Both of these IR bullet cameras use a dual housing window design to prevent IR LED reflection problems.
- Dual glass housing window

TRUE Day/Night

- Small size – 2.4" diameter X 5.71" long
- Automatic mechanical IR-Filter switch
- Weather resistant anodized aluminum housing and sunshield
- Top, bottom, rear-style swivel mount bracket included
- 3.8-9.5mm Aspherical VF AI lens
- 12VDC power supply included
- Dual glass housing window

Ordering Guide

SCN#	Item
S230CWPS	Color Bullet Camera, 3.6mm, 12VDC power supply, white case, mount
S35CHPS36	Color Day/Night Bullet Camera, w/LEDs, 3.6mm, 12VDC power supply, white case, mount
S35CHPS	Color Day/Night Bullet Camera, w/LEDs, 6mm, 12VDC power supply, white case, mount
SDN655PS	TRUE Color Day/Night Bullet Camera, IR filter, w/18 LEDs, 3.8-9.5mm VF AI lens, 12VDC power supply, white case, mount

Specifications

Image Sensor

Color Bullet: 1/3" IT CCD, 510 (H) x 492 (V) Pixels
 Color Day/Night Bullet: 1/3" IT CCD, 768 (H) x 494 (V) Pixels
 TRUE Day/Night Bullet: 1/3" IT CCD, 768 (H) x 494 (V) Pixels

Resolution

Color Bullet: > 380 Lines
 Color Day/Night Bullet: > 550 Lines
 TRUE Day/Night Bullet: > 550 Lines

Lens

3.6mm, fixed iris S230CWPS, S35CHPS36
 6mm, fixed iris S35CHPS
 3.8-9.5mm VF, AI, IR, Aspherical SDN655PS

LED Illumination (S35C Series)

LEDs: 6-total, 10 meter beam
 Wavelength: 850nm
 Beam Length: 10 meters (~30-ft)
 Half angle: +/- 15 degrees
 Sensor Detection Range: 10 lux min, 30 lux max, 15 lux avg

LED Illumination (TRUE Day/Night Only)

LEDs: 18-total, 15 meter beam
 Wavelength: 850nm
 Beam Length: 15 meters (~50-ft)
 Half angle: +/- 15 degrees
 Sensor Detection Range: 1.5 lux min, 10 lux max, 5 lux avg

Electronic Iris

1/60 ~ 1/100,000 Sec.
 (TRUE Day/Night Bullet: 1/60 ~ 1/50,000 Sec.)

Minimum Illum.

Color Bullet: 0.5 lux, F2.0
 Color Day/Night Bullet: 0.0 lux (IR LEDs on)
 TRUE Day/Night Bullet: 0.0 lux (IR LEDs on)

Video Output

1.0Vp-p (75-ohms), Video BNC

Camera Connectors

BNC / Power (12VDC power supply included)

Dimensions

Color Bullet: 0.9" dia. x 2.9" (23mm dia. x 74mm)
 Color Day/Night Bullet: 1.5" dia. x 3.6" (37mm dia. x 92mm)
 TRUE Day/Night Bullet: 2.4" dia. x 5.7" (60mm dia. x 145mm)

Power *

Color Bullet: 12 VDC, 1.5 w (max)
 Color Day/Night Bullet: 12 VDC, 3.0 w (max)
 TRUE Day/Night Bullet: 12 VDC, 6.0 w (max)

* 12VDC power supply included

Operating Temperature

Color Bullet: 14°F ~ 122°F (-10°C ~ +50°C)
 Color Day/Night Bullet: -4°F ~ 122°F (-20°C ~ +50°C)
 TRUE Day/Night Bullet: -4°F ~ 122°F (-20°C ~ +50°C)

Environmental

TRUE Day/Night Bullet IP67 rated
